

# ALTERNATIVE 3A

## EXISTING ALIGNMENT WITH PERMANENT BYPASS RAILWAY

### PROS

- ➔ Minimal additional Right-of-Way required
- ➔ Asphalt plant to remain
- ➔ Gas station to remain
- ➔ Storage units to remain
- ➔ Least amount of environmental impacts

### CONS

- ➔ Most amount of disruption to US 136 traffic during construction
- ➔ Warsaw Road temporary closure during construction
- ➔ Railroad temporary closure during construction
- ➔ Costs associated with railroad improvements
- ➔ Most amount of stream impacts
