FY 2027

PROPOSED HIGHWAY IMPROVEMENT PROGRAM

Illinois Department of Transportation

PROGRAM OVERVIEW

Each year, the Illinois Department of Transportation develops the Annual Highway Improvement Program. This publication presents a detailed account of the Fiscal Year 2027 highway program element. It provides a current listing of the projects sorted by district and phase of work to assist stakeholders with planning activities.

The FY 2027 Annual Highway Improvement Program includes projects totaling approximately $850 million in appropriations from previous fiscal years that are scheduled to be implemented in FY 2027. As a result, the FY 2027 Annual Highway Improvement Program totals $6.4 billion.

FY 2027 ANNUAL HIGHWAY IMPROVEMENT PROGRAM

NUMBER OF IMPROVEMENTS

1,303 HIGHWAY MILES

187 BRIDGES

NUMBER OF SAFETY/TRAFFIC IMPROVEMENTS

318 LOCATIONS

DOLLARS INCLUDED IN PROGRAM

$4.58B STATE SYSTEM

$1.82B LOCAL SYSTEM

A total of 1,303 miles of highways and 187 bridges will be improved or constructed through the FY 2027 Annual Highway Improvement Program. Safety and traffic improvements are scheduled at 318 locations. The FY 2027 Annual Highway Improvement Program includes $4.58 billion for projects on the state highway system and $1.82 billion for projects on the local system.

The program priorities are to maintain and preserve our existing roads and bridges, or assets, with a special emphasis on the National Highway System and structurally deficient bridges on that system. There are 7,744 miles of roads and 4,843 bridges (totaling 76,313,717 square feet of deck area) on the NHS.[1]

1 National Highway System Illinois Highway Statistics Sheet 2025

Asset management is a strategic and systematic process of operating, maintaining and improving physical assets, with a focus on engineering and economic analysis based upon quality information, to identify a structured sequence of maintenance, preservation, repair, rehabilitation and replacement actions that will achieve and sustain a desired state of good repair over the life cycle of the assets at minimum practicable cost. *(23 U.S.C. 101(a)(2), MAP-21 § 1103)*

The department is working to more accurately relate costs associated with preservation and maintenance activities. Through this effort, IDOT can evaluate potential investment strategies and determine how best to reach the goals outlined in the Asset Management Program. Asset management is a strategic and systematic process of operating, maintaining and improving physical assets, with a focus on engineering and economic analysis based upon quality information, to identify a structured sequence of maintenance, preservation, repair, rehabilitation and replacement actions that will achieve and sustain a desired state of good repair over the life cycle of the assets at minimum practicable cost. *(23 U.S.C. 101(a)(2), MAP-21 § 1103)*

With the additional funding provided by IIJA and Rebuild Illinois, it is anticipated that the pavement goals will be met or nearly met. However, the rate at which bridges are deteriorating will make it very difficult to meet the bridge targets, even with the additional investment provided by IIJA and Rebuild Illinois. All pavement and bridge projects included in the state program have been evaluated to ensure they are programmed for the right treatment at the right time, consistent with the life-cycle planning as described in the AMP.

To further the department's ability to ensure the correct treatments are being done at the right time during an asset's life cycle and then see the long-term results of this approach, IDOT implemented an Enterprise Asset Management System. This system will assist the districts in determining the best treatments for an asset as well as the optimal mix of projects to obtain the most benefit for the cost.

The chart to the right displays the funding sources for the Annual Highway Improvement Program.

STATE PROGRAM

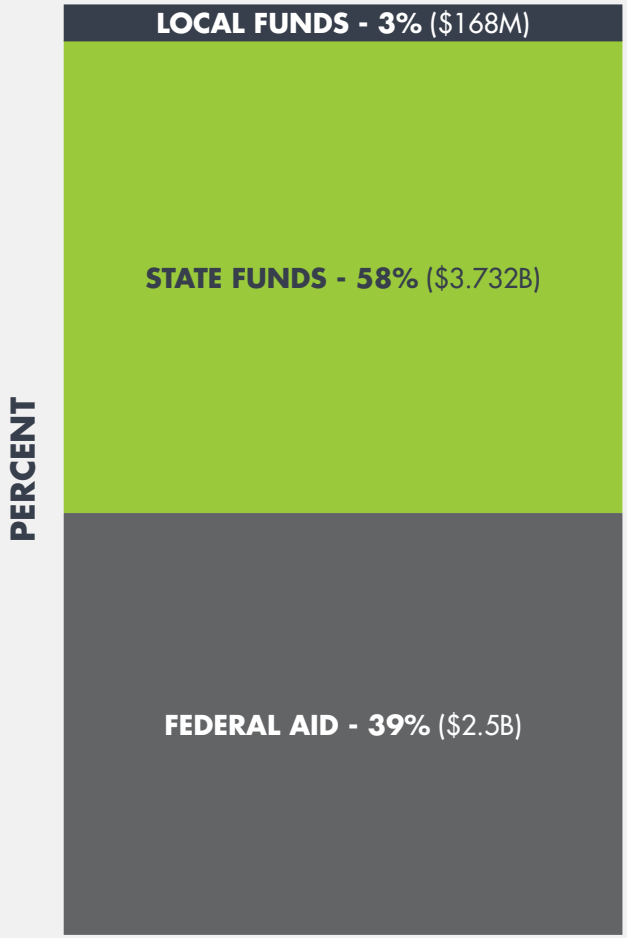

The FY 2027 state program included in the Annual Highway Improvement Program focuses on maintaining and preserving our existing roads and bridges with a special emphasis on the NHS and structurally deficient bridges for a total cost of $4.58 billion. This investment allows for 930 centerline miles[2] or 2,790 lane miles[3] of roads to be improved or added to the existing highway system, along with 907,366 square feet of deck area improvements (96 bridges) and 272 intersection and spot improvements.

State	Total Number Programmed	Published Program
Construction	600	$3,239,552,000
Utility Adjustments	19	$23,670,000
Engineering (Cons/ other engineering)	289	$659,216,000
Land Acquisition	55	$66,395,000
Statewide	60	$594,962,000
Subtotal	**1,023**	**$4,583,795,000**

2 Centerline miles represent the total length of a given road from its starting point to its end point. The number of lanes on that road are not considered when calculating centerline mileage.

3 Lane miles include the total length and lane count of a given road. Lane miles are calculated by multiplying the centerline mileage of a road by the number of lanes on that segment.

FY 2027 FUNDING SOURCES*

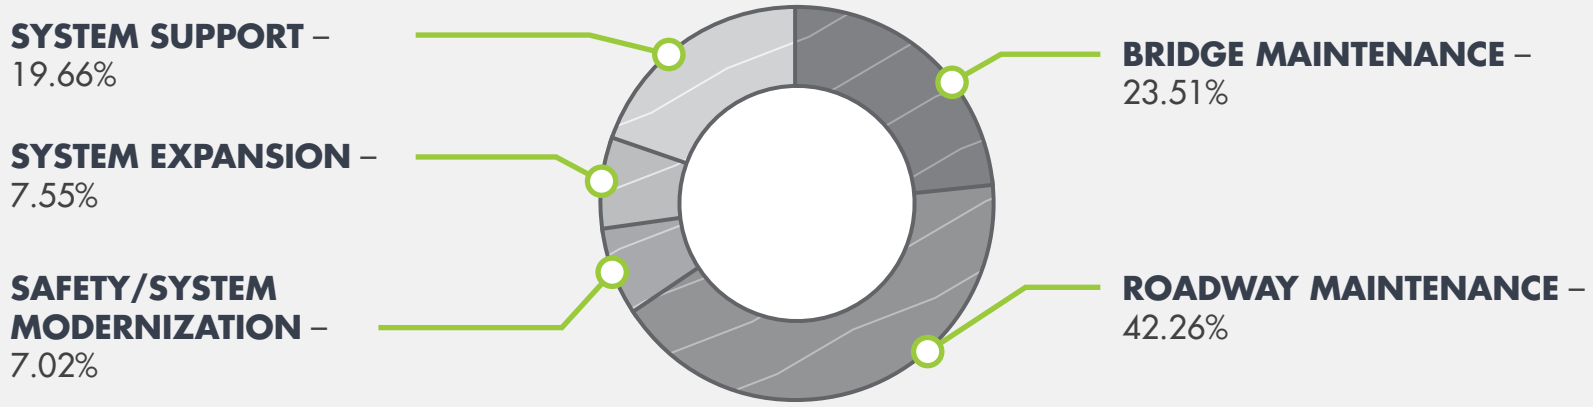

**There are projects totaling approximately $850 million included in the published FY 2027 program utilizing reappropriations.*

CORE WORK CATEGORIES

The department's focus has been modified to concentrate on five core areas in categorizing projects: roadway maintenance, bridges, safety/system modernization, system expansion and a system support category that includes assets and activities supporting the transportation network, as shown below.

CORE WORK CATEGORIES

The types of work included in the core areas are:

- **Roadway maintenance** includes reconstruction, resurfacing, lane or shoulder width widening and pavement preservation projects.
- **Bridge maintenance** consists of bridge replacement and rehabilitation, minor structure repairs and preservation projects. Bridge information will be discussed in terms of square feet of deck area instead of number of bridges.
- **Safety/system modernization** consists of projects such as interchange reconstruction, interstate safety projects, and traffic and safety improvements.
- **System expansion** includes major projects, such as new bridges on new alignments, bridge replacements that increase capacity, additional lanes, new interchanges, and strategic regional arterials.
- **System support** consists of rest area and weigh station maintenance, miscellaneous districtwide projects, contract maintenance, statewide engineering or other statewide items, such as pavement markings, guardrail delineation, sign truss work and median barriers.

The table below lists the miles of roads and square feet of bridges programmed in the FY 2027 state program for the NHS and non-NHS system.

FY 2027 Core Work Categories Programmed Improvements	
Roadway Maintenance	
Interstate NHS (miles)	40
Non-Interstate NHS (miles)	235
Non-NHS Marked (miles)	297
Non-NHS Unmarked (miles)	105
Bridges	
Interstate NHS (sq. ft.)	292,251
Non-Interstate NHS (sq. ft.)	329,049
Non-NHS Marked (sq. ft.)	155,881
Non-NHS Unmarked (sq. ft.)	98,462
Safety/System Modernization	
Safety Locations (number)	272
System Expansion	
Interstate NHS (miles)	-
Non-Interstate NHS (miles)	-
Non-NHS Marked (miles)	2
Non-NHS Unmarked (miles)	1
New Bridges (sq. ft.)	31,723
Preservation	
Programmed (miles)	250

The following notable NHS system construction projects are included in the Annual Highway Improvement Program:

Northern Illinois

- Additional lanes, reconstruction, retaining wall, sanitary sewer, grading and culvert (new) on Illinois 22, from Quentin Road to east of Illinois 83 (Mundelein Road) in Kildeer, Long Grove and Lake Zurich at a cost of $80.7 million.
- Reconstruction, bridge replacement, interchange reconstruction, lighting, culvert removal, culvert replacement, additional lanes on Interstate 74, from about a mile south of 23rd Avenue (Avenue of The Cities) to south of Illinois 5 and on Illinois 5 from 116th Street to just west of 38th Street in Moline at a cost of $112.2 million.
- Reconstruction, bridge replacement, culvert replacement, intersection improvement and additional lanes on U.S. 20 from Shaw Road east of the Winnebago County line to just northeast of State Street in Belvidere at a cost of $70.9 million.
- Interchange reconstruction, reconstruction, retaining wall, bridge replacement and railroad separation replacement on I-57 at the Illinois 17 interchange, from south of Waldron Road to north of Illinois 17 and at Beaverville and Southern Railroad (overhead), south of Illinois 17 in Kankakee at a cost of $89 million.

Central Illinois

- Designed overlay, shoulder reconstruction, ramp repair and underdrains on U.S. 34, from west of U.S. 150 to west of Interstate 74 and interchanges at U.S. 150 (Henderson Street) and Seminary Street in Galesburg at a cost of $19 million.
- Designed overlay and resurfacing on I-57, from north of U.S. 36 to south of Sadorus Road in Pesotum at a cost of $41.5 million.
- Designed overlay, traffic signal modernization, curbs and gutters, and ADA improvements on Illinois 9, from Main Street to Empire Street in Bloomington at a cost of $14.3 million.
- Standard overlay, resurfacing, bridge removal/demolition and ramp repair on I-72, from a half-mile west to 1.5 miles east of Old U.S. 36 north of Winchester at a cost of $13.6 million.

Southern Illinois

- Designed overlay and resurfacing on Interstate 57, from the north tri-level at I-70 to the Shelby County line in Effingham County at a cost of $31.7 million.
- Standard overlay on Illinois 15, from the Edwards County line to east of Empire Street in Mount Carmel at a cost of $11.7 million.
- Designed overlay, resurfacing, bridge replacement, ramp repair, sign maintenance, culvert repair, scour mitigation, new bridge deck, bridge superstructure replacement, superstructure zone/spot painting, bridge deck overlay, bridge repair, bridge deck repairs, bridge deck dealing, bridge joint repair and replacement, superstructure full painting on I-270, from east of Illinois 111 to east of I-55/70 and at County Ditch west of Sand Road at the I-255 interchange and on I-255, from east of Illinois 111 to east of I-55/70 in Pontoon Beach at a cost of $220 million.

- Designed overlay on Illinois 16, from east of June Street to Grange Hall Road at a cost of $17 million.

Of the 65 NHS bridges programmed, 24 are structurally deficient. Following are a few of the significant NHS bridge construction projects included in the Annual Highway Improvement Program:

Northern Illinois

- Bridge replacement and ADA improvements on Pershing Road over Racine Avenue and Canadian National rail 1.3 miles west of the Dan Ryan Expressway (Interstate 90/94) in Chicago at a cost of $56.0 million.
- Bridge replacement, retaining wall, new auxiliary lanes, new bridge, reconstruction and interchange reconstruction on I-190 at the U.S. 12/45 (Mannheim Road) interchange in Chicago and Rosemont at a cost of $118.1 million.
- Bridge superstructure replacement, new bridge deck, culvert repair, bridge deck overlay, bridge joint replacement/repair and median crossover on I-57, from north of U.S. 24 to 1.6 miles south of Danforth Road, 1.2 miles south of U.S. 24 to 2 miles north of U.S. 24 and 1.2 miles south of Sugar Creek and 1.3 miles north of Prairie Creek in Iroquois County at a cost of $38 million.

Central Illinois

- Bridge replacement, intersection improvement, ADA improvements, and standard overlay on West Church Street at the Canadian National railroad and Copper Slough, from west of Country Fair Drive and on Country Fair Drive, north of Church Street to University Drive in Champaign at a cost of $17.7 million.
- Bridge replacement on Interstate 57 at Kirby Avenue in Champaign at a cost of $17 million.

Southern Illinois

- Bridge replacement on Interstate 70 at Illinois 32/33 in Effingham at a cost of $18.3 million.
- Bridge deck overlay, bridge repair, superstructure zone/spot painting, bridge joint replacement on Illinois 143 at Wood River Creek 1.3 miles west of Illinois 3 in East Alton at a cost of $11.3 million.

LOCAL PROGRAM

The FY 2027 Highway Improvement Program includes improvements on local streets and highways using federal funds. A portion of the federal funding is allocated based on population to local agencies throughout the state. The local program included in the FY 2027 Highway Improvement Program provides $1.82 billion to fund improvements on 373 miles of road and 506,465 square feet of deck area (91 bridges), along with 46 traffic and safety improvements. In addition, $7 million is included in the program to help local governments upgrade designated truck routes.

Under the current asset management requirements, IDOT is required to report on the condition of the total NHS, regardless of who maintains it. Of the 373 miles of road and 91 bridges programmed, 11 miles and five bridges are located on the locally owned NHS. The five bridges total 186,847 square feet, and all five bridges are structurally deficient. IDOT will work with its local agency partners to develop a plan to address the maintenance of the locally owned miles and square feet of bridge deck area to determine how their plans impact IDOT's ability to meet its goals.

The FY 2027 Highway Improvement Program also provides $120.1 million in state funds to assist local governments that are not listed in this document. These funds are allocated directly to local governments by formula. The breakdown is as follows:

LOCAL GOVERNMENT FUNDING ALLOCATION BREAKDOWN

$16.8M
FOR NEEDY TOWNSHIPS

$6.7M
FOR HIGH-GROWTH CITIES

$36.6M
TO COUNTIES LESS THAN 1M IN POPULATION

$60M
FOR THE LOCAL TOWNSHIP BRIDGE PROGRAM

Approximately $1.25 billion of state motor fuel tax funds will be directly distributed to municipalities, counties and townships for administration and the repair of local roads and bridges during FY 2027. This distribution is in addition to the state's $6.4 billion FY 2027 Annual Highway Improvement Program.

GUIDE TO THE LISTING

The projects included in the FY 2027 Annual Highway Improvement Program are grouped by state highway district. Within each district, individual projects are listed in descending order by county, route and location.
