## CIRCULAR LETTER 2023-02

### **FISCAL YEAR 2024 FEDERAL FUNDING ALLOTMENTS:**

- Surface Transportation Program – Rural (STR)
- Surface Transportation Program – Urban (STU)
- Local Bridge Program (formerly STP-Br), and
- State Matching Assistance (SMA)

COUNTY ENGINEERS / SUPERINTENDENTS OF HIGHWAYS / MUNICIPAL ENGINEERS / DIRECTORS OF PUBLIC WORKS / MAYORS / METROPOLITAN PLANNING ORGANIZATIONS – DIRECTORS

Attached to this circular letter is a listing of the state fiscal year (FY) 2024 federal Surface Transportation Program (STP), Local Bridge Formula Program (LBFP), and State Matching Assistance Program allotments. The federal formula allotments have been divided into STP-Rural (STR), STP-Urban (STU), and Local Bridge Formula Program (LBFP) categories.

### **STP-Rural (STR)**

The total amount of FY 2024 STR funds allotted to the counties is \$75,005,346 with \$66,897,786 to be distributed among the downstate counties in Districts 2 through 9. The remaining \$8,107,560 is for use by the eligible counties in District 1.

The formula for distribution of the STR funds to the downstate counties is as follows:

1. Ten percent divided equally among the downstate counties.
2. Balance allocated to the downstate counties based on the following three factors with equal weight being given to each factor:
  - a. non-urban area
  - b. non-urban population
  - c. non-urban mileage (total all systems)

### **STP-Urban (STU)**

The total amount of FY 2024 STU funds allotted to the urbanized areas is \$258,951,536 with \$213,302,679 to be utilized in District 1 for Northeastern Illinois. The remaining \$45,648,857 is for utilization by the downstate urbanized areas with a population greater than 5,000. The STU funds are sub-allocated to the urbanized areas based on percentage of population of the individual urbanized area to the total urbanized area population for the entire state.

### **Local Bridge Formula Program (LBFP, formerly STP-Br)**

With the passage of the Infrastructure Investment and Jobs Act (IIJA), there is a new bridge formula program under the Highway Infrastructure Program (HIP) for bridge replacement, rehabilitation, preservation, and more. This program will now fund the Local Bridge Formula Program and replace STP-Bridge. For the most part, these funds will maintain the exact same rules and guidelines as STP-Bridge. Starting in SFY 2024, off-system structures may

January 11, 2023

use up to 100% LBFP funding, requiring no local match. Additionally, inspection and load rating, and posting of highway bridges are not eligible activities using the LBFP. STU or STR may be used for those activities.

The total amount of FY 2024 Local Bridge Formula Program funds allotted to all counties is \$58,933,567. The funding is distributed based on the combined deficient square footage of eligible county, township, and municipal structures within a county. Requests for local agencies to use the Local Bridge Program funds are to be made through the County Engineer with the approval of the IDOT District. Municipalities with a population of 15,000 or greater may program the funds directly through the IDOT District, with the amount coming from the county allotment.

**Distribution Data**

This year's federal funding allotments used the 2010 census, including any population updates received from the Secretary of State's office, and the 2021 Illinois Highway and Street Mileage Statistics non-urban mileage and non-urban area totals. The 2020 census information is not ready for use in IDOT federal formula calculations.

**State Matching Assistance (SMA)**

The formula for distribution of the \$6,720,000 in state matching assistance is based on 69 percent federal funding and 31 percent local match. This match ratio is variable each year and is generated to result in utilization of the entire state matching assistance amount. A more detailed explanation of the state matching assistance program is also attached.

If you have any questions regarding the federal funding allotments or the State Matching Assistance Program, please contact your IDOT District Bureau of Local Roads and Streets office.

Sincerely,

George A. Tapas, P.E., S.E  
Engineer of Local Roads and Streets

- cc: Shane Schneider, Illinois Association of County Engineers
- Brad Cole, Illinois Municipal League
- Jerry Crabtree, Township Officials of Illinois
- Arnold Vegter, Township Highway Commissioners of Illinois

\*An additional \$8,107,560.42 of STR Funds will be distributed among the District 1 counties

## STATE MATCHING ASSISTANCE (SMA)

The State Matching Assistance Program is designed to assist counties in matching federal funds when the county cannot derive sufficient matching funds from local taxation. Counties receive a Surface Transportation Program Rural (STR) allotment which may be used to fund up to 80 percent of eligible project costs. Counties are allowed to levy a Federal-Aid Matching Tax to use for the local share. Although an 80/20 federal / local matching ratio is allowable for STR projects, a lower matching ratio is judged to be more equitable when determining the need for matching funds because the counties receive other federal-aid funds in addition to STR funds that require a local match. Some counties do not have a sufficient tax base to generate the local funds needed for the match. The State Matching Assistance Program of \$6.72 million per year addresses this problem.

The county is required to levy a Federal-Aid Matching Tax of at least .045 percent to be eligible for assistance. To receive the maximum amount it is required to have a tax rate of .05 percent. If the rate is .045 percent, the allocation is 90 percent of the maximum. If the rate is between .045 percent and .05 percent, the assistance is prorated. If the rate falls below .045 percent, the county may retain its eligibility for assistance if a permanent transfer of funds from a non-highway fund to the Federal-Aid Matching Tax Fund is made to meet the equivalent of the minimum eligibility threshold.

The maximum assistance amount for each county is established as the difference between the amount required to match the county's STR allotment using a computer generated federal / local matching ratio and the funds generated by the county's Federal-Aid Matching Tax. This matching ratio is variable each year and is generated to result in utilization of the entire State Matching Assistance amount.

The amount of funds received by each county will vary from year to year. The variable amount of STR funds available each year and the local Equalized Assessed Valuation (EAV) as provided by the Department of Revenue have a direct correlation on the amount of funds to be disbursed based on shortfall. As an example, when the STR allotment increases, the counties will have a greater need for additional match. Conversely, when the STR allotment decreases, the counties will not have a need to match as much federal funding and therefore will require less State Matching Assistance Program funds.

State Matching Assistance Program funds may be used for any federal-aid project.

**Commitment of Funds:** If a county so desires, it may use its accumulated matching funds to defray any part or the entire non-federal portion of any local federal-aid project regardless of the federal matching percentage. The State Matching Assistance funds may be committed as a lump-sum amount or as a percentage of the project cost not to exceed the current available State Matching Assistance allotment for the county.

**Anticipation:** There can be no anticipation of State Matching Assistance funds. In other words, no county can commit more State Matching Assistance funds to a project than it has available at the time of letting. However, existing agreements for active projects may be amended to increase the amount of State Matching Assistance funding when it becomes available.
