

FY 2022

Proposed Highway Improvement Program

Program Overview

Each year, the Illinois Department of Transportation (IDOT) develops the Annual Highway Improvement Program. This publication presents a detailed account of the Fiscal Year 2022 highway program element, originally presented in the Fiscal Year 2022-2027 Proposed Highway Improvement Program. It provides a current listing of the projects sorted by district and phase of work to assist stakeholders with planning activities.

The COVID-19 pandemic caused a decrease in the consumption of motor fuel and therefore a significant reduction in the motor fuel revenues deposited into the state's Road and Construction Funds. The decrease was somewhat offset by the federal Coronavirus Response and Relief Supplemental Appropriations Act, of which, \$175.5 million is included in the FY 2022 Annual Highway Improvement Program. The department will monitor the data and make any adjustments to the Annual Highway Improvement Program deemed necessary as actual revenue impacts are realized. The department is committed to the projects identified in the [FY 2022-2027 Proposed Highway Improvement Program](#) and this Annual Highway Improvement Program, however – fluctuations in revenues may lead to projects being accomplished later than anticipated.

The Rebuild Illinois capital program passed in June 2019, significantly increased the size of IDOT's highway program. The FY 2022 Annual Highway Improvement Program continues to remain significantly larger than previous years. The FY 2022 Annual Highway Improvement Program provides \$3.32 billion of the \$20.7 billion included for highways in the Fiscal Year 2022-2027 Proposed Highway Improvement Program. Also included are projects totaling \$285 million in appropriation from previous fiscal years that are scheduled to be implemented in FY 2022. As a result, the FY 2022 Highway Improvement Program totals \$3.605 billion. This allows the department to continue to move forward assertively towards meeting the Transportation Asset Management Plan (TAMP) goals and fixing our crumbling state's infrastructure.

| FY 2022 ANNUAL HIGHWAY IMPROVEMENT PROGRAM | | | | |
|--|------------|---------------------------------------|-----------------------------|-----------------|
| NUMBER OF IMPROVEMENTS | | NUMBER OF SAFETY/TRAFFIC IMPROVEMENTS | DOLLARS INCLUDED IN PROGRAM | |
| 1,178 | 170 | 84 | \$2.354B | \$1.251B |
| HIGHWAY MILES | BRIDGES | LOCATIONS | STATE SYSTEM | LOCAL SYSTEM |

A total of 1,178 miles of highways and 170 bridges will be improved or constructed through the FY 2022 Annual Highway Improvement Program. Safety and traffic improvements are scheduled at 84 locations. The FY 2022 Annual Highway Improvement Program includes \$2.354 billion for projects on the state highway system and \$1.251 billion for projects on the local system.

This year continues the implementation of the federally required TAMP. This means that states are required to consider the life cycle cost of roads and bridges. On August 29, 2019, the Federal Highway Administration determined that IDOT had developed and implemented a fully compliant TAMP. The projects in the FY 2022 State Program of the Annual Highway Improvement Program that improve the condition of pavements and bridges have been selected within the parameters of the TAMP.

Focusing on asset management has allowed IDOT to change from a “worst-first” philosophy to a proactive approach to preserving our assets. The department now performs treatments in all stages of the transportation system’s life cycle. Under asset management, the strategy is to develop and implement a data-driven decision process that supports the use of analysis tools and life cycle strategies to reduce the rate of system deterioration as cost effectively as possible. The department will continue to address road and bridge needs to ensure our system is safe but will also spend money on low-cost improvements to preserve those roads and bridges and keep them in acceptable condition longer.

The program priorities are to maintain and preserve our existing roads and bridges, or assets, with a special emphasis on the NHS and structurally deficient bridges on that system. There are more than 7,700 miles of roads and 4,823 bridges (totaling 74,091,328 square feet of deck area) on the NHS.¹ The department’s focus on the NHS is due in large part to new federal performance rules that require state departments of transportation to prioritize its condition. New federal performance measures were developed to “*increase the accountability and transparency of the federal-aid highway program and provide for a framework to support improved investment decision making through a focus on performance outcomes for key national transportation goals.*”²

Asset management is a strategic and systematic process of operating, maintaining, and improving physical assets, with a focus on engineering and economic analysis based upon quality information, to identify a structured sequence of maintenance, preservation, repair, rehabilitation, and replacement actions that will achieve and sustain a desired state of good repair over the life cycle of the assets at minimum practicable cost. (23 U.S.C. 101(a)(2), MAP-21 § 1103)

The additional funding through the Rebuild Illinois capital program, along with the implementation of Transportation Asset Management philosophy, will help to make significant progress in addressing our road and bridge needs in Illinois. However, the state’s needs are so significant that even with the additional funding, not all roads and bridges will be able to be addressed in the next six to 10 years.

¹ National Highway System Illinois Highway Statistics Sheet 2020

² <https://www.fhwa.dot.gov/tpm/rule.cfm>

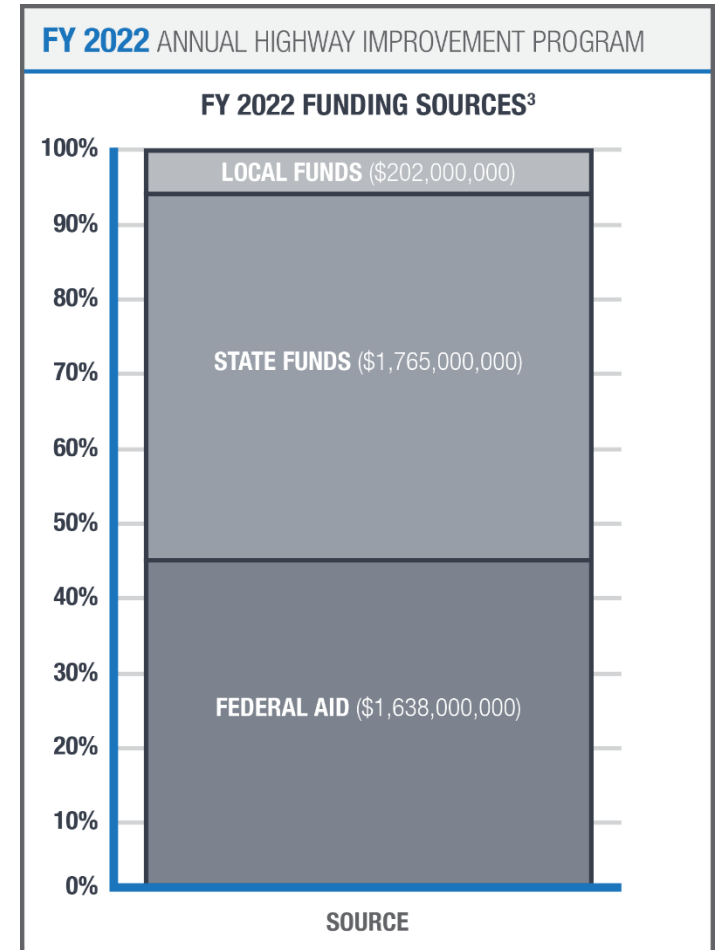

The size of the program is much more significant than previous investments, and the additional funding is being provided by a combination of both bond funds and an increase in motor fuel taxes of \$.19 per gallon, diesel differential increasing \$.05 per gallon, and motor vehicle registrations increased \$50 or \$100 depending on class. Also, beginning July 2021, a 5-year phase-in of the state portion of the sales tax on motor fuels will be deposited to the Road Fund instead of the General Fund.

The chart to the right displays the funding sources for the Annual Highway Improvement Program.

State Program

The FY 2022 state program included in the Annual Highway Improvement Program focuses on maintaining and preserving our existing roads and bridges, or assets, with a special emphasis on the NHS and structurally deficient bridges for a total cost of \$2.354 billion. This investment allows for 930 miles of roads to be improved or added to the existing highway system, along with 525,494 square feet of deck area improvements (65 bridges) and 65 intersection and spot improvements.

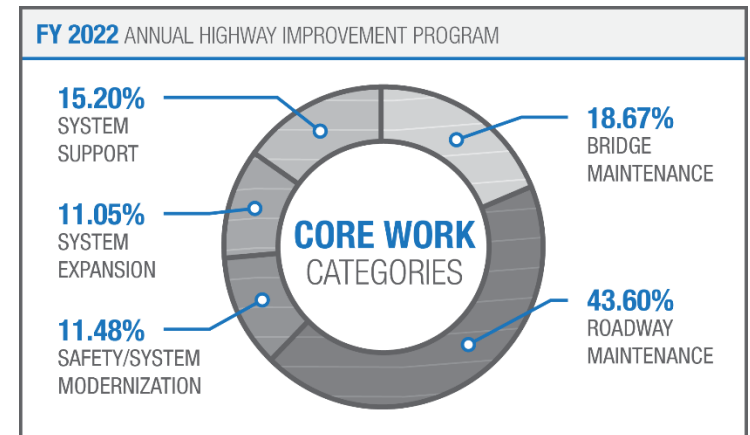

The department is working to more accurately relate cost associated with preservation and maintenance activities. Through this effort IDOT has the ability to evaluate potential investment strategies and determine how best we can reach the goals outlined in the TAMP. With the additional funding provided in Rebuild Illinois, it is anticipated that the pavement goals will be met or nearly met. However, the rate at which bridges are deteriorating will make it very difficult to meet the bridge targets, even with the additional investment provided by Rebuild Illinois. All pavement and bridge projects included in the state program have been evaluated to ensure they are programmed for the right treatment at the right time, consistent with the life-cycle planning as described in the TAMP.

³ There are projects totaling \$285 million included in the published FY 2022 program utilizing reappropriations.

Core Work Categories

The implementation of asset management has necessitated several changes to the FY 2022 state program, as federal asset management rules require that IDOT show a commitment to preserving and maintaining the existing system. The department's focus has been modified to concentrate on five core areas in categorizing projects: road maintenance, bridges, safety/system modernization, system expansion and a system support category which includes assets and activities supporting the transportation network. Much of the funding in the FY 2022 state program will be used to maintain and preserve the state's existing system of roads and bridges as shown in the chart to the right.

The types of work included in the core areas are:

- **Roadway Maintenance** includes reconstruction, resurfacing, widening and pavement preservation projects.
- **Bridges** consists of bridge replacement and rehabilitation, minor structure repairs and preservation projects. Bridge information will be discussed in terms of square feet of deck area instead of number of bridges.
- **Safety/System Modernization** consists of projects such as interchange reconstruction, interstate safety projects, and traffic and safety improvements.
- **System Expansion** includes major projects, such as new bridges on new alignment, bridge replacements that increase capacity, additional lanes, new interchanges, and strategic regional arterials.
- **System Support** consists of rest area and weigh station maintenance, miscellaneous districtwide projects, contract maintenance, statewide engineering or other statewide items, such as pavement markings, guardrail delineation, sign truss work and median barriers.

The table below lists the miles of roads and square feet of bridges programmed in the FY 2022 state program for the NHS and non-NHS system.

Table 2. Total Miles and Square Feet of Bridges in the FY 2022 State Program

FY 2022 Core Work Categories Programmed Improvements

Roadway Maintenance

| | |
|----------------------------|-----|
| Interstate NHS (miles) | 88 |
| Non-Interstate NHS (miles) | 226 |
| Non-NHS Marked (miles) | 251 |
| Non-NHS Unmarked (miles) | 89 |

Bridges

| | |
|------------------------------|---------|
| Interstate NHS (Sq. Ft.) | 118,247 |
| Non-Interstate NHS (Sq. Ft.) | 270,343 |
| Non-NHS Marked (Sq. Ft.) | 70,030 |
| Non-NHS Unmarked (Sq. Ft.) | 65,860 |

Safety/System Modernization

| | |
|---------------------------|----|
| Safety Locations (number) | 65 |
|---------------------------|----|

System Expansion

| | |
|----------------------------|-------|
| Interstate NHS (miles) | 8.5 |
| Non-Interstate NHS (miles) | 0.57 |
| Non-NHS Marked (miles) | 0.32 |
| Non-NHS Unmarked (miles) | 1.44 |
| New Bridges (Sq. Ft.) | 1,014 |

Preservation

| | |
|----------------------|-----|
| Accomplished (miles) | 265 |
|----------------------|-----|

The following notable NHS system projects are included in the Annual Highway Improvement Program:

Northern Illinois

- Interchange reconstruction and adding auxiliary lanes on Interstate 55 at Interstate 80 to U.S. 52 (Jefferson Street) in Shorewood at a cost of \$47.5 million;
- Standard overlay, resurfacing and drainage on Interstate 57 south of Interstate 294 (Tri-State Tollway) to Illinois 1 (Halsted Street) in Markham, Posen, Dixmoor, Riverdale, Blue Island, Calumet Park and Chicago at a cost of \$25.0 million;
- Additional lanes, reconstruction, bridge replacement and culvert replacement on Illinois 71 at 0.5 miles east of Illinois 126 to west of Orchard Road west of Oswego in Yorkville and Oswego at a cost of \$37.0 million.

Central Illinois

- Standard overlay and resurfacing on Interstate 74 at 0.8 miles east of Morton Avenue to the Woodford County line in Morton at a cost of \$21.0 million;
- Designed overlay, resurfacing and ramp repair on Interstate 474 at Interstate 74 to the Illinois River in Bellevue, Peoria and Bartonville at a cost of \$22.9 million;
- Designed overlay and resurfacing on Interstate 74 at 0.3 miles west of U.S. 150 to the Norfolk and Southern Railroad and at 0.2 miles east of U.S. 150 to the Vermillion River in Tilton at a cost of \$17.65 million;
- Standard overlay, resurfacing, ramp repair, underdrains, bridge painting, bridge repair, bridge joint replacement/repair, bridge deck repairs and drains replacement/repair on Interstate 55, south of the Sangamon/Montgomery line to Brush Creek 0.7 miles south of Illinois 104 in Sangamon and Montgomery Counties at a cost of \$16.6 million;
- Designed overlay and culvert replacement on U.S. 36 at 0.2 miles west of Illinois 32 to the Douglas County line in Moultrie County at a cost of \$10.3 million.

Southern Illinois

- Standard overlay and ADA improvements on Illinois 159 at 0.1 miles north of Center Grove Road in Edwardsville to Kinloch Avenue in Collinsville at a cost of \$12.2 million;
- Additional lanes on Interstate 57 at the Middle Fork Big Muddy River north of West Frankfort to 2.5 miles south of Illinois 154 in Franklin County at a cost of \$53.7 million.

Of the 42 NHS bridges programmed, 27 are structurally deficient. Following are a few of the significant NHS bridge projects included in the Annual Highway Improvement Program:

Northern Illinois

- New bridge deck, bridge repair, lighting and scour mitigation on U.S. 12 over Santa Fe Drive, S&S Canal, I&M Canal and the ICG Railroad in Willow Springs at a cost of \$22.1 million;
- Bridge replacement, culvert replacement, new median, left turn lanes, curb and gutter, drainage, standard overlay, ADA improvements and widening existing pavement on Illinois 132 west of Sheehan Drive to Munn Road in Lake County at a cost of \$17.1 million.

Central Illinois

- Reconstruction, ramp repair, bridge repair, bridge approach roadway, culvert extension and culvert repair on Interstate 57 at the Jefferson County line to 0.7 miles north of Illinois 161 in Marion County at a cost of \$40.5 million;
- Bridge superstructure, ramp repair, bridge deck repairs, bridge repair culvert rehabilitation, culvert repair and rubblization on Interstate 70 at 1 mile east of Interstate 57 interchange to the Cumberland County line in Effingham County at a cost of \$50.0 million.

Southern Illinois

- Bridge painting, bridge joint replacement/repair and bridge deck overlay on Interstate 255 at the Jefferson Barracks Bridge in Columbia at a cost of \$18.0 million.

Local Program

The FY 2022 Highway Improvement Program includes improvements on local streets and highways using federal funds. A portion of the federal funding is allocated based on population to local agencies throughout the state. The local program included in the FY 2022 Highway Improvement Program provides \$1.251 billion to fund improvements on 248 miles of road and 357,899 square feet of deck area (105 bridges), along with 19 traffic and safety improvements. In addition, \$7 million is included in the program to help local governments upgrade designated truck routes.

Under the current asset management requirements, IDOT is required to report on the condition of the total NHS, regardless of who maintains it. Of the 248 miles of road and 105 bridges programmed, three miles and three bridges are located on the locally owned NHS. The three bridges total 103,859 square feet and are structurally deficient. IDOT will work with its local agency partners to develop a plan to address the maintenance of the locally maintained miles and square feet of bridge deck area to determine how their plans impact IDOT's ability to meet its goals.

The FY 2022 Highway Improvement Program also provides \$75.1 million in state funds to assist local governments that are not listed in this document. These funds are allocated directly to local governments by formula. The breakdown is as follows:

| FY 2022 ANNUAL HIGHWAY IMPROVEMENT PROGRAM | | | |
|---|---|--|--|
|  \$16.8M FOR NEEDY TOWNSHIPS |  \$6.7M FOR HIGH-GROWTH CITIES |  \$36.6M TO COUNTIES LESS THAN ONE MILLION IN POPULATION |  \$15M FOR THE LOCAL TOWNSHIP BRIDGE PROGRAM |

Approximately \$980.9 million of state motor fuel tax funds will be directly distributed to municipalities, counties and townships for administration and the repair of local roads and bridges during FY 2022. This distribution is in addition to the state’s \$3.605 billion FY 2022 Annual Highway Improvement Program.

GUIDE TO THE LISTING

The projects included in the FY 2022 Annual Highway Improvement Program are grouped by state highway district. Within each district, projects are listed under six headings:

- State Construction
- State Engineering
- State Land Acquisition
- Local Construction
- Local Engineering
- Local Land Acquisition

Individual projects are listed within these six headings in descending route marking order, i.e., Interstate, U.S., Illinois and other. Each project's funding type is identified by eligibility with symbols. The symbols and their funding categories are shown in Table 3. Projects in some categories, such as railroad-highway grade crossing safety and some statewide and districtwide items, will be identified and selected during the fiscal year. A glossary with abbreviations is listed in Table 4.
