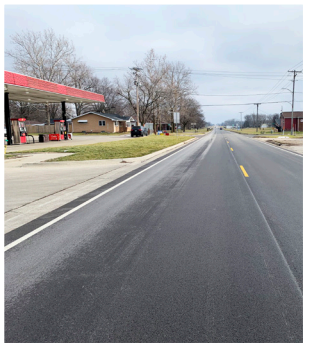
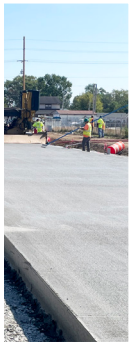
FY 2025

PROPOSED HIGHWAY IMPROVEMENT PROGRAM





Illinois Department of Transportation

Program Overview

Each year, the Illinois Department of Transportation develops the Annual Highway Improvement Program. This publication presents a detailed account of the Fiscal Year 2025 highway program element, originally presented in the FY 2025-2030 Proposed Highway and Multimodal Improvement Program. It provides a current listing of the projects sorted by district and phase of work to assist stakeholders with planning activities.

On Nov. 15, 2021, the Infrastructure Investment and Jobs Act, also known as the Bipartisan Infrastructure Law, was signed into law. This new five-year funding authorization bill provides for an approximate 20% increase in federal formula funds and an estimated 12% increase over existing formula funds. The remaining increase in formula funding was in new programs. This funding, along with additional funding from the Rebuild Illinois capital program passed in June 2019, helps make significant progress in addressing our road and bridge needs in Illinois.

The IIJA and the Rebuild Illinois capital program have significantly increased the size of IDOT's highway program. The FY 2025 Annual Highway Improvement Program remains significantly larger than previous years, providing $5.3 billion of the $29.65 billion included for highways in the Fiscal Year 2025-2030 Proposed Highway and Multimodal Improvement Program. Also included are projects totaling approximately $530 million in appropriations from previous fiscal years that are scheduled to be implemented in FY 2025. As a result, the FY 2025 Annual Highway Improvement Program totals $5.83 billion. In addition to the $5.83 billion total program, the General Assembly passed an additional $400 million of appropriations for transportation related purposes in municipalities, counties, townships, and road districts with a priority placed on funding in economically distressed community areas. This appropriation will be budgeted in the next Proposed Highway and Multimodal Improvement Program for FY 2026-2031.

A total of 998 miles of highways and 211 bridges will be improved or constructed through the FY 2025 Annual Highway Improvement Program. Safety and traffic improvements are scheduled at 192 locations. The FY 2025 Annual Highway Improvement Program includes $4.19 billion for projects on the state highway system and $1.64 billion for projects on the local system.

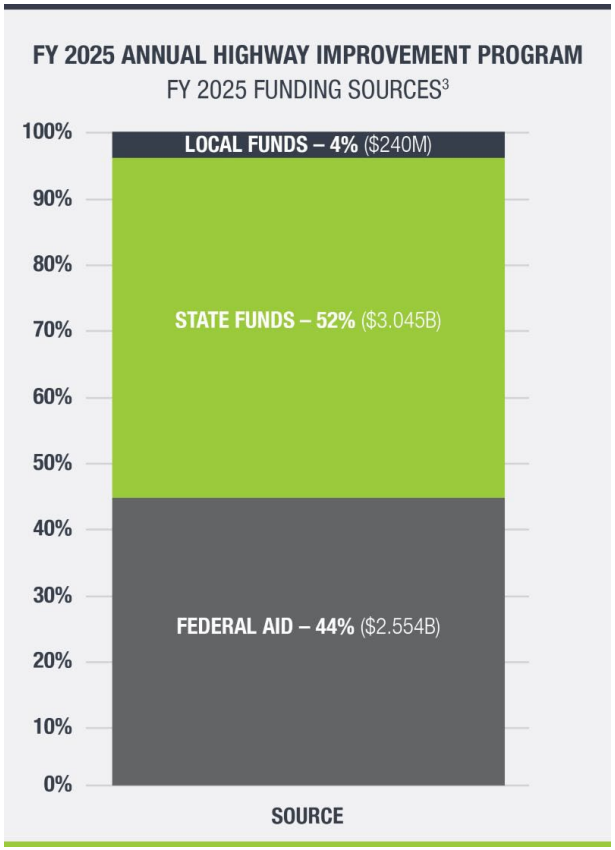
This year continues the implementation of the federally required TAMP. This means that states are required to consider the life-cycle cost of roads and bridges. On January 24, 2023, the Federal Highway Administration recertified an updated fully compliant TAMP. Under asset management, a data-driven decision process has been developed and implemented that supports the use of analysis tools and life-cycle strategies to reduce the rate of system deterioration as cost-effectively as possible. The department will continue to address road and bridge preservation needs to ensure our system is safe but will also spend money on low-cost treatments to preserve those roads and bridges and keep them in acceptable condition longer. The projects in the FY 2025 State Program of the Annual Highway Improvement Program have been selected within the parameters of the TAMP.

The program priorities are to maintain and preserve our existing roads and bridges, or assets, with a special emphasis on the National Highway System and structurally deficient bridges on that system. There are 7,754 miles of roads and 4,831 bridges (totaling 75,368,741 square feet of deck area) on the NHS.[1] The department's focus on the NHS is due in large part to federal performance rules that require state departments of transportation to prioritize its condition. The federal performance measures were developed to "increase the accountability and transparency of the federal-aid highway program and provide for a framework to support improved investment decision making through a focus on performance outcomes for key national transportation goals."[2]

> *Asset management is a strategic and systematic process of operating, maintaining and improving physical assets, with a focus on engineering and economic analysis based upon quality information, to identify a structured sequence of maintenance, preservation, repair, rehabilitation and replacement actions that will achieve and sustain a desired state of good repair over the life cycle of the assets at minimum practicable cost. (23 U.S.C. 101(a)(2), MAP-21 § 1103)*

[1] National Highway System Illinois Highway Statistics Sheet 2023
[2] https://www.fhwa.dot.gov/tpm/rule.cfm

The chart to the right displays the funding sources for the Annual Highway Improvement Program.



State Program

The FY 2025 state program included in the Annual Highway Improvement Program focuses on maintaining and preserving our existing roads and bridges, or assets, with a special emphasis on the NHS and structurally deficient bridges for a total cost of $4.19 billion. This investment allows for 693 miles of roads to be improved or added to the existing highway system, along with 1,236,259 square feet of deck area improvements (112 bridges) and 152 intersection and spot improvements.

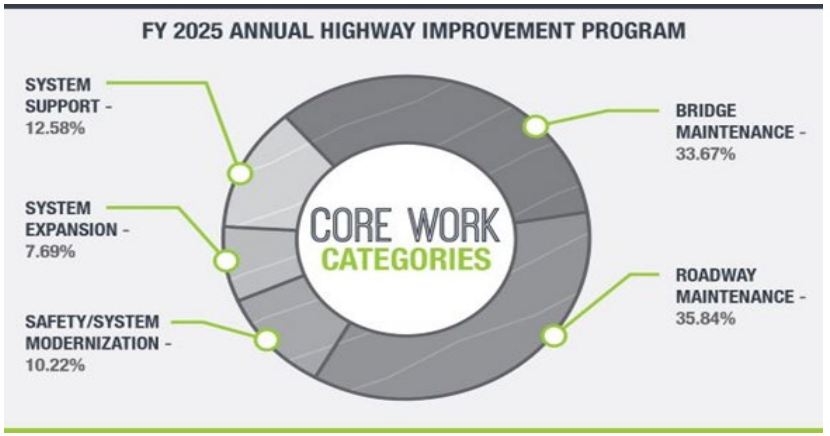
The department is working to more accurately relate costs associated with preservation and maintenance activities. Through this effort, IDOT can evaluate potential investment strategies and determine how best to reach the goals outlined in the TAMP. With the additional funding provided by IIJA and Rebuild Illinois, it is anticipated that the pavement goals will be met or nearly met. However, the rate at which bridges are deteriorating will make it very difficult to meet the bridge targets, even with the additional investment provided by IIJA and Rebuild Illinois. All pavement and bridge projects included in the state program have been evaluated to ensure they are programmed for the right treatment at the right time, consistent with the life-cycle planning as described in the TAMP.

To further the department's ability to ensure the correct treatments are being done at the right time during an asset's life cycle and then see the long-term results of this approach, IDOT implemented an Enterprise Asset Management System. This system will assist the districts in determining the best treatments for an asset as well as the optimal mix of projects to obtain the most benefit for the cost.

[3] There are projects totaling approximately $530 million included in the published FY 2025 program utilizing reappropriations.

Core Work Categories

The department's focus has been modified to concentrate on five core areas in categorizing projects: roadway maintenance, bridges, safety/system modernization, system expansion and a system support category that includes assets and activities supporting the transportation network, as shown in the chart to the right.



The types of work included in the core areas are:

- **Roadway Maintenance** includes reconstruction, resurfacing, lane or shoulder width widening and pavement preservation projects.

- **Bridges** consists of bridge replacement and rehabilitation, minor structure repairs and preservation projects. Bridge information will be discussed in terms of square feet of deck area instead of number of bridges.

- **Safety/System Modernization** consists of projects such as interchange reconstruction, interstate safety projects, and traffic and safety improvements.

- **System Expansion** includes major projects, such as new bridges on new alignment, bridge replacements that increase capacity, additional lanes, new interchanges, and strategic regional arterials.

- **System Support** consists of rest area and weigh station maintenance, miscellaneous districtwide projects, contract maintenance, statewide engineering or other statewide items, such as pavement markings, guardrail delineation, sign truss work and median barriers.

The table below lists the miles of roads and square feet of bridges programmed in the FY 2025 state program for the NHS and non-NHS system.

Table 1. Total Miles and Square Feet of Bridges in the FY 2025 State Program

FY 2025 Core Work Categories Programmed Improvements	
Roadway Maintenance	
Interstate NHS (miles)	87
Non-Interstate NHS (miles)	143
Non-NHS Marked (miles)	246
Non-NHS Unmarked (miles)	58
Bridges	
Interstate NHS (sq. ft.)	388,187
Non-Interstate NHS (sq. ft.)	609,512
Non-NHS Marked (sq. ft.)	99,446
Non-NHS Unmarked (sq. ft.)	129,771
Safety/System Modernization	
Safety Locations (number)	152
System Expansion	
Interstate NHS (miles)	18
Non-Interstate NHS (miles)	5
Non-NHS Marked (miles)	-
New Bridges (sq. ft.)	9,343
Preservation	
Accomplished (miles)	136

The following notable NHS system construction projects are included in the Annual Highway Improvement Program:

Northern Illinois

- Interchange reconstruction, new bridge and retaining wall on Interstate 80 at Interstate 55 in Joliet at a cost of $32.3 million.
- Traffic signal modernization, signal timing, and changeable message signs on Illinois 64 (North Avenue) from Smith/Kautz Road to York Road in various municipalities in DuPage County at a cost of $11.2 million.
- Reconstruction, bridge replacement, realignment, culvert work and truck climbing lane on U.S. 20 from 0.2 mile west of Logemann Road to Rush Street in Stockton at a cost of $27.5 million.
- Designed overlay and resurfacing on Interstate 57 from Ford County line to 0.7 mile south of Buckley Interchange in Loda at a cost of $23 million.

Central Illinois

- Designed overlay, resurfacing, underdrains and ramp repair on Interstate 74 from 0.4 mile east of U.S. 150/Illinois 1 at Tilton to Indiana State line at a cost of $28 million.
- Designed overlay, widening existing pavement, ADA improvements and traffic signal modernization on U.S. 51 Business from Gregory Street/Bowles Street in Normal to Olive Street in Bloomington at a cost of $50 million.
- Designed overlay, resurfacing, ramp repair, patching, bridge repair and bridge joint replacement on Interstate 55 from 0.7 mile south of Illinois 104 to 0.5 mile north of Old Route 66 at Glenarm Interchange at a cost of $19.4 million.
- Designed overlay and resurfacing on Interstate 72 from 1.5 miles east of Old U.S. 36 to 0.7 mile west of U.S. 67 in Scott and Morgan County at a cost of $25 million.

Southern Illinois

- Interchange reconstruction on Interstate 270 at Illinois 111 Interchange in Pontoon Beach at a cost of $23 million.
- Designed overlay, resurfacing, ramp repair, culvert repair, new bridge deck, bridge painting and bridge repair on Interstate 55/70 and U.S. 40 from 0.5 mile west of Illinois 203 in Madison to 0.5 mile west of Black Lane in Collinsville at a cost of $67.6 million.
- Designed overlay, resurfacing and ramp repair on Interstate 64 from 0.5 mile west of Beaver Pond Creek to 0.9 mile west of County Highway 11 in Nashville at a cost of $58.7 million.
- Additional lanes on Interstate 57 from 2.5 miles south of Illinois 154 to Atchinson Creek south of Bonnie at a cost of $85 million.

Of the 77 NHS bridges programmed, 55 are structurally deficient. Following are a few of the significant NHS bridge construction projects included in the Annual Highway Improvement Program:

Northern Illinois

- Bridge fabrication of the construction of new bridge on Interstate 80 at Des Plaines River in Joliet at a cost of $65 million.
- Bridge deck overlay, bridge joint replacement/repair and bridge approach roadway on Interstate 90/94 (Kennedy Expressway) Northbound from Interstate 94 (Edens Expressway) to Hubbard Street in Chicago at a cost of $40.2 million.
- Bridge new deck, bridge superstructure replacement, bridge repair, standard overlay, culvert repair, retaining wall and traffic signal modernization on Illinois 53 at Kirchoff Road, Industrial Avenue, U.S. 14 (Northwest Highway), Palatine Road and Anderson Drive in Rolling Meadows and Palatine at a cost of $61 million.
- Railroad separation replacement on Illinois 47 at the BNSF-Mendota Railroad north of U.S. 34 in Yorkville at a cost of $17.5 million.

Central Illinois

- Bridge superstructure replacement and median crossover on Interstate 74 at Spoon River and over Township Road 238A 0.2 mile west of Spoon River Rest Area at a cost of $13.8 million.
- Bridge replacement on Interstate 74 at Mackinaw River 1.3 miles east of Illinois 117 at a cost of $23 million.
- Bridge replacement on Interstate 155 at Mackinaw River 0.9 mile north of Illinois 122 at a cost of $28.2 million.

Southern Illinois

- Bridge replacement and median crossover on Interstate 57 over Eastern Illinois Railroad 0.3 mile south of Neoga Interchange and over U.S. 45 at Neoga Interchange at a cost of $31.8 million.
- Bridge replacement and interchange reconstruction on Interstate 57 from Illinois 15 Interchange in Mt Vernon at a cost of $45 million.
- Bridge joint replacement/repair, bridge painting, bridge deck overlay, bridge repair, designed overlay, resurfacing and ramp repair on Interstate 64 from 0.2 mile west of Illinois 157 in Caseyville to 0.4 mile west of Green Mount Road in O-Fallon at a cost of $87.6 million.

Local Program

The FY 2025 Highway Improvement Program includes improvements on local streets and highways using federal funds. A portion of the federal funding is allocated based on population to local agencies throughout the state. The local program included in the FY 2025 Highway Improvement Program provides $1.64 billion to fund improvements on 305 miles of road and 464,453 square feet of deck area (99 bridges), along with 40 traffic and safety improvements. In addition, $7 million is included in the program to help local governments upgrade designated truck routes.

Under the current asset management requirements, IDOT is required to report on the condition of the total NHS, regardless of who maintains it. Of the 305 miles of road and 99 bridges programmed, 8 miles and five bridges are located on the locally owned NHS. The five bridges total 141,030 square feet and five bridges are structurally deficient totaling 135,401 square feet. IDOT will work with its local agency partners to develop a plan to address the maintenance of the locally maintained miles and square feet of bridge deck area to determine how their plans impact IDOT's ability to meet its goals.

The FY 2025 Highway Improvement Program also provides $120.1 million in state funds to assist local governments that are not listed in this document. These funds are allocated directly to local governments by formula. The breakdown is as follows:

Approximately $1.166 billion of state motor fuel tax funds will be directly distributed to municipalities, counties and townships for administration and the repair of local roads and bridges during FY 2025. This distribution is in addition to the state's $5.83 billion FY 2025 Annual Highway Improvement Program.

GUIDE TO THE LISTING

The projects included in the FY 2025 Annual Highway Improvement Program are grouped by state highway district. Within each district, projects are listed under six headings:

- State Construction
- State Engineering
- State Land Acquisition
- Local Construction
- Local Engineering
- Local Land Acquisition

Individual projects are listed within these six headings in descending route marking order, i.e., Interstate, U.S., Illinois and other. Each project's funding type is identified by eligibility with symbols. The symbols and their funding categories are shown in Table 2. Projects in some categories, such as railroad-highway grade crossing safety and some statewide and districtwide items, will be identified and selected during the fiscal year. A glossary with abbreviations is listed in Table 3.
