Project Sponsor	Project Description	Impacted School	Total Funds Awarded	Review Score
Greenville	Extend and replace the existing noncompliant sidewalk with a new 6-foot-wide ADA compliant sidewalks for safe walking and biking to and from school. All new sidewalks include curbs, detectable warning signs and accessible ramps.	Greenville Elementary School, Greenville Junior High School and Bond County Unit 2 High School	\$250,000	92.43
Fairview Heights	A new ADA-compliant 10-foot-wide multiuse path that directly connects the Bountiful Heights neighborhood to Grant Middle School. Fencing will be provided as needed.	Grant Middle School	\$250,000	90.50
Mascoutah	Three pedestrian bump-outs on North County Road to narrow traffic lanes and slow speeds at its intersections with Harnett Street, Jackson Street and between the high school and the Life House. Sidewalks will be widened along Madison Street and curb ramps will be built at Madison Street and Lincoln Boulevard.	Mascoutah High School and Mascoutah School District Life House	\$250,000	90.14
Centralia	Construction of approximately 1,800 feet of sidewalk connecting Jordan Elementary School to Edgebrook Lane.	Jordan Elementary School	\$250,000	85.29
Lebanon	A new 6-foot-wide sidewalk with curbs and gutters along the east side of Horner Street from Dee Street to Mary Jane Street. A new section of 5-foot-wide sidewalk will be added on the south side of Mary Jane Street along the school parking lot. New ADA curb ramps and high visibility crosswalks and signage will be installed at all intersections.	Lebanon Elementary, Junior High and High schools	\$250,000	84.00
Millstadt	New sidewalk along the north side of Parkview Drive that includes ADA curb ramps at all intersections, high-visibility crosswalk markings and signage. A pair of solar powered rectangular rapid flashing beacons will be installed at Parkview Drive and Jefferson Street (Illinois 163) as well as at the intersection of Jefferson Street and Mill Street.	Millstadt Primary and Consolidated schools	\$250,000	83.86
Marion	New sidewalks from Illinois 13 to Morningside Elementary School.	Lincoln Elementary School, Marion Community Unit School District 2	\$249,810	86.29

SAFE ROUTES TO SCHOOL

2024 Selected Projects and Funding Amounts

Project Sponsor	Project Description	Impacted School	Total Funds Awarded	Review Score
Western Springs	Development of a school travel plan that will identify safe walking and biking routes to each school. This plan will include detailed maps and infrastructure recommendations based on feasibility, cost effectiveness and community input.	Field Park, Forest Hills, Laidlaw, McClure, LaGrange Highlands District 106, Lyons Township High School, St. John of the Cross schools	\$75,000	87.25
Stillman Valley	New sidewalk that will run along the street adjacent to Highland Elementary School. Funding also will allow the elementary school to offer a bicycle curriculum that includes bike safety basics, rules of the road, riding skills, safety gear and bike rodeo activities.	Highland Elementary, Stillman Valley High schools	\$13,140	94.75
Ladd	Pop-up traffic garden and booklet with an event map and safety rules. The garden will contain bicycles, helmets and other safety equipment.	Ladd Community Consolidated School District 94	\$6,800	88.00
Mendota	Safety audit to find the safest routes for all students to attend each of the four impacted schools. The safety audit will assist all students because the schools are structured by grade level, not neighborhoods. The safety audit being proposed will allow the community to plan, prioritize, and implement safer routes and paths to each of the schools.	Blackstone, Lincoln, Northbrook, Mendota Township High schools	\$99,800	92.00
Bluffs	Bicycle rodeo and bicycle safety clinic. Students will learn the rules of the road and safe bicycling skills and then practice these skills as they complete the bicycle rodeo. Experienced bicycle repair individuals will examine bicycles to ensure safe operating condition, make any necessary basic repairs and perform helmet fittings.	Bluffs Elementary/Junior High School, Bluffs High School	\$12,400	80.75
Pleasant Plains	Bicycle rodeo and bicycle safety clinic. Students will learn the rules of the road and safe bicycling skills and then practice these skills as they complete the bicycle rodeo. Experienced bicycle repair individuals will examine bicycles to ensure safe operating condition, make any necessary basic repairs and perform helmet fittings.	Pleasant Plains Middle, Pleasant Plains High, Farmingdale Elementary schools	\$21,920	82.50

Rushville	Bicycle rodeo and bicycle safety clinic. Students will learn the rules of the road and safe bicycling skills and then practice these skills as they complete the bicycle rodeo. Experienced bicycle repair individuals will examine bicycles to ensure safe operating condition, make any necessary basic repairs for safety and perform helmet fittings.	Webster Elementary, Washington Elementary, Rushville-Industry High School, Schuyler-Industry Middle School	\$19,085	87.00
Newton	Fund a temporary safety city on the school's blacktop. The grant will allow school personnel, crossing guards and first responders to teach students how to walk and bike using sidewalks while providing a safe environment. All participants will be entered into a raffle for bicycles, scooters and safety equipment. Additionally, the school is requesting funding for handheld stop signs and vests for their crossing guards.	Newton Elementary School	\$25,000	81.25
Mascoutah	Evaluate the conditions of sidewalks and paths, assessing ADA compliance, crosswalks, stop signs and pedestrian signage as well as safety concerns and school pick-up and drop-off procedures. This information will be distributed to families in the 2025-26 school year, as well as help develop plans for future projects, including costs, maps, and right of way implications.	Mascoutah Elementary, Mascoutah Middle, Mascoutah High schools	\$82,500	80.75
Total			\$9,786,108
