## 2026 Selected Projects and Funding Amounts

| Project Sponsor        | Project Description                                                                                                                                                                                | Impacted School(s)                                                                                                                                                                                        | Total Funds Awarded |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| Village of Roselle     | Installation of pedestrian refuge islands and rapid flashing beacons at two mid-block crosswalks on West Bryn Mawr Avenue.                                                                         | Lake Park High                                                                                                                                                                                            | \$250,000           |
| Village of Midlothian  | Construction of new sidewalk along the south side of 143rd Street and filling of sidewalk gaps on Kenneth Avenue.                                                                                  | Kolmar Elementary                                                                                                                                                                                         | \$250,000           |
| Village of Woodstock   | Installation of new sidewalks along the west side of Illinois 47 as well as a refuge island with flashing beacons and overhead lighting at the intersection of Illinois 47 and St. John's Road.    | Mary Endres Elementary, Northwood Middle                                                                                                                                                                  | \$250,000           |
| Village of East Dundee | Construction of a 5-foot-wide public sidewalk along North Van Buren Street and Wilmette Avenue from Roslyn Road to Cleveland Avenue, linking the school campuses to the existing sidewalk network. | Oak Ridge Middle, Carpentersville Middle, Parkview Elementary, DeLacy Family Education Center, Immanuel Lutheran, Lumen Academy, St. Catherine of Siena, Dundee Highlands Elementary, Lakewood Elementary | \$250,000           |
| Village of Algonquin   | Improvements at the intersection of Lake Gillilan Way and Compton Drive to include installation of crosswalk signage, pedestrian refuge island, ADA-compliant sidewalk ramps and new striping.     | Algonquin Lakes Elementary, Eastview Elementary, Algonquin Middle, Perry Elementary, Dundee Crown High, Meadowdale Elementary                                                                             | \$123,000           |
| Village of Berkeley    | Installation of bike racks at schools to support the West Cook Bicycle and Pedestrian Plan recommendations.                                                                                        | Sunnyside Elementary, MacArthur Middle                                                                                                                                                                    | \$75,399            |
| Village of Fox Lake    | Replacement of deteriorated sidewalk with a 10-foot-wide multimodal path extending 2,500 feet along Hawthorne Lane.                                                                                | Stanton School                                                                                                                                                                                            | \$250,000           |

# SAFE ROUTES TO SCHOOL

## 2026 Selected Projects and Funding Amounts

| Project Sponsor             | Project Description                                                                                                                                                                                                     | Impacted School(s)                                                                                        | Total Funds Awarded |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------|---------------------|
| Village of Glendale Heights | Construction of an 8-foot-wide shared-use path along approximately 4,600 lineal feet of the east side of President Street, ADA improvements at crossings and high-visibility crosswalk pavement markings.               | Americana Intermediate, GlenOaks School, Glenside Middle, Glen Hill Elementary, Queen Bee Early Childhood | \$250,000           |
| Village of River Forest     | Crosswalk improvements will be made at two intersections along Lake Street. Improvements will include curb extensions and rapid flashing beacons.                                                                       | Lincoln Elementary, Roosevelt Middle, St. Luke's                                                          | \$179,828           |
| Town of Cicero              | Construction of a raised intersection, ADA-compliant ramps and thermoplastic pavement markings.                                                                                                                         | Columbus West Elementary, Columbus East Elementary                                                        | \$219,560           |
| Village of Plainfield       | Installation of 3,960 feet of new sidewalk along the west side of Frederick Avenue, north side of Robert Avenue and both sides of Norman Avenue. The project will also include ADA-compliant ramps and four crosswalks. | Central Elementary, St. Mary Immaculate                                                                   | \$250,000           |
| City of North Chicago       | Improvements will be made at several intersections and will include ADA-compliant curb ramps, crosswalk markings, upgraded pedestrian signage and sidewalk repair.                                                      | Evelyn Alexander Elementary                                                                               | \$250,000           |
| City of Galena              | This project will include sidewalk improvements, ADA-compliant curb ramps, signage, pavement markings and a multiuse bike trail to coincide with a large city road project.                                             | Galena CUSD 120                                                                                           | \$250,000           |
| Village of Winnebago        | Installation of new sidewalk along School Street from Elida Street to Shelden Street to connect to school campuses.                                                                                                     | Jean McNair Elementary, Dorothy Simon Elementary, Winnebago Middle, Winnebago High                        | \$250,000           |
| City of Kewanee             | Construction of new sidewalk along Lake Street to extend a previous SRTS project. Project will also include ADA-compliant curb ramps and crosswalk improvements.                                                        | Belle Alexander Elementary                                                                                | \$250,000           |

# SAFE ROUTES TO SCHOOL

## 2026 Selected Projects and Funding Amounts

| Project Sponsor   | Project Description                                                                                                                                                                                                                                                                                                                                                            | Impacted School(s)                                                                   | Total Funds Awarded |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|---------------------|
| City of Belvidere | Removal and replacement of deteriorated sidewalks, new ADA-compliant sidewalks with detectable warning surfaces, restriping of key pedestrian crosswalks and installation of two permanently mounted solar-powered speed feedback signs south of Washington Academy along Sixth Street to enhance visibility and driver awareness.                                             | Perry Elementary, Washington Academy                                                 | \$249,346           |
| Village of Walnut | New sidewalk construction that will connect two currently separated paths.                                                                                                                                                                                                                                                                                                     | Bureau Valley North Elementary                                                       | \$62,900            |
| Village of Dwight | Installation of a new sidewalk along Chicago Street from Wilmac Street to Scott Drive, and along Scott Drive from Chicago Street to Columbia Street. Construction of ADA-compliant curb ramps and installation of detectable warning surfaces at each intersection to ensure accessibility and safety for all users.                                                           | Dwight Common                                                                        | \$250,000           |
| City of Pontiac   | Extend and replace the existing sidewalk on a segment of South Mill Street with 2,117 feet of new 5-foot-wide, ADA-compliant sidewalk that will create a safe, continuous route for students walking or biking to and from school. Work includes 27 detectable warning signs, ADA accessible ramps, painted crosswalks and signage at 14 intersections throughout the network. | Central Grade, Lincoln Grade, Washington Grade, Pontiac Junior High                  | \$250,000           |
| City of Paxton    | Restoration of the Clayton Hale Pedestrian Bridge, the only pedestrian bridge over the CN railroad tracks providing access to approximately 1,200 students in Paxton. The bridge is currently closed due to structural issues.                                                                                                                                                 | Clara Peterson Elementary, Paxton-Buckley-Loda Junior High, Paxton-Buckley-Loda High | \$250,000           |
| City of Mendota   | Construction of new sidewalk on the west side of 14th Avenue, seven ADA-compliant curb ramps, high-visibility crosswalks and sidewalk improvements at other areas around Blackstone Elementary School.                                                                                                                                                                         | Blackstone Elementary                                                                | \$250,000           |
| Village of Ladd   | Extension of a previously awarded SRTS project to provide new sidewalk access along Cleveland Street and install ADA-compliant ramps at all intersections.                                                                                                                                                                                                                     | Ladd CCUSD 94                                                                        | \$250,000           |
| City of Bushnell  | New construction and replacement of unsafe areas of existing sidewalk. Installation of ADA-compliant ramps at all necessary intersections.                                                                                                                                                                                                                                     | Bushnell-Prairie City Elementary                                                     | \$250,000           |

# SAFE ROUTES TO SCHOOL

## 2026 Selected Projects and Funding Amounts

| Project Sponsor       | Project Description                                                                                                                                                                                                                                                                                                              | Impacted School(s)                                                   | Total Funds Awarded |
|-----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------|---------------------|
| Village of Rantoul    | Safety and accessibility upgrades to sidewalks and intersections adjacent to JW Eater Junior High School. Replacement of the existing sidewalks along Wabash Avenue and intersection improvements at Wabash Avenue and Marshall Street are all proposed to increase safety and to encourage students to walk and bike to school. | JW Eater Junior High                                                 | \$250,000           |
| Village of Downs      | Extension of approximately 1,240 feet of ADA-compliant sidewalk from the existing path on the north side of Main Street near Price Street west to Gadwall Lane. New traffic striping, ADA curb ramps and a designated pedestrian crossing to ensure accessibility and safety.                                                    | Tri-Valley Elementary, Tri-Valley Middle, Tri-Valley High            | \$239,169           |
| City of Mount Pulaski | Replacing and extending approximately 2,253 feet of 5-foot-wide, ADA-compliant sidewalks (4 inches thick; 6 inches at driveways) as well as installing and upgrading ADA-accessible curb ramps to ensure safe crossings for everyone.                                                                                            | Mount Pulaski Grade School, Mount Pulaski High, Zion Lutheran School | \$250,000           |
| City of Staunton      | Installation of 2,700 feet of 5-foot sidewalk along West North Street, Deneen Street and Lafayette Street and installation of ADA-compliant ramps in appropriate locations.                                                                                                                                                      | Staunton Elementary, Staunton Junior High                            | \$250,000           |
| City of Litchfield    | Replacement of approximately 1,554 feet of deteriorated sidewalk along State Street with new 5-foot-wide sidewalks, ADA-compliant curb ramps, concrete curbs and freshly repainted crosswalks.                                                                                                                                   | Litchfield Elementary                                                | \$250,000           |
| City of Pana          | Installation of 1,880 lineal feet of ADA-compliant sidewalks focused on two critical corridors, Seventh Street and Walnut Street, serving as primary pedestrian routes for students attending Pana Elementary, Pana Junior High and Pana High schools.                                                                           | All Pana CUSD 8                                                      | \$250,000           |
| City of Mattoon       | Sidewalk repairs and ramps, pavement markings, signage and speed feedback signs, and crossing improvements.                                                                                                                                                                                                                      | Mattoon High                                                         | \$250,000           |
| City of Flora         | Construction of approximately 1,885 lineal feet of 5-foot-wide (4 inches thick; 6 inches at driveways) sidewalk along Stanford Road and Third Street.                                                                                                                                                                            | Floyd Henson Junior High                                             | \$250,000           |

# SAFE ROUTES TO SCHOOL

## 2026 Selected Projects and Funding Amounts

| Project Sponsor      | Project Description                                                                                                                                                                                                                                                                                                                                                                                   | Impacted School(s)                                | Total Funds Awarded |
|----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------|---------------------|
| City of Mattoon      | Reconstruction of sidewalks in poor condition to meet ADA requirements, replacement of driveway approaches to tie in with new sidewalks, replacement of all crossings at each intersection to meet ADA requirements, installation of radar speed limit signs to calm traffic, replacement of all school crossing signs for improved visibility and drainage improvements to eliminate standing water. | Mattoon Middle, Mattoon Elementary                | \$250,000           |
| City of Marshall     | Construction to widen sidewalks, fix broken and raised panels and add sidewalk to long stretches without sidewalks. Also included will be pavement markings and crosswalk improvements.                                                                                                                                                                                                               | South Elementary                                  | \$250,000           |
| Village of Clay City | Sidewalk improvements, upgraded signage and striping, and crossing improvements in the immediate vicinity of Clay City Elementary and High schools.                                                                                                                                                                                                                                                   | Clay City Elementary, Clay City High              | \$165,057           |
| Village of Oblong    | Approximately 1,500 feet of sidewalk improvements along Missouri Street in Oblong, bounded on the east by Range Street and on the west by Jefferson Street.                                                                                                                                                                                                                                           | Oblong Elementary, Oblong High                    | \$250,000           |
| City of Chester      | Targeted improvements to pedestrian and bicycle routes serving Chester Elementary School and Chester High School to enhance the safety of students walking and biking from surrounding neighborhoods.                                                                                                                                                                                                 | Chester Elementary, Chester High                  | \$250,000           |
| City of Alton        | Removal and replacement of existing sidewalk on the north side of Brown Street from Rock Springs Drive to the west side of Avon Street. A new pedestrian crossing will be added on Brown Street at Rock Springs Drive that will include high-visibility crosswalk pavement markings and a push-button activated rectangular rapid flashing beacon.                                                    | Alton Middle, East Elementary, Lovejoy Elementary | \$217,400           |
| City of Greenville   | Replacement and extension of roughly 1,671 feet of sidewalk along Idler Lane and new crosswalks to fill gaps that currently force students and residents into unsafe conditions. The sidewalk will be 5 feet wide and meet all ADA and IDOT standards.                                                                                                                                                | Greenville Elementary                             | \$250,000           |
| City of Belleville   | Construction of a shared-use path and upgraded crossings along Royal Heights Road to improve pedestrian and bicycle safety and connectivity for students and residents.                                                                                                                                                                                                                               | Abraham Lincoln Elementary, West Junior High      | \$250,000           |

## 2026 Selected Projects and Funding Amounts

| Project Sponsor       | Project Description                                                                                                                                                                                                                                                                      | Impacted School(s)                                                                                                   | Total Funds Awarded |
|-----------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------|---------------------|
| City of Centralia     | Construction of approximately 800 feet of new 6-foot-wide (4 inches deep; 6 inches at driveways) sidewalk along the west side of Country Club Road. All construction will meet or exceed ADA and IDOT standards and specifications.                                                      | Jordan Elementary                                                                                                    | \$250,000           |
| City of Vienna        | Improvement of existing crosswalk at the intersection of Illinois 146 and Third Street. New sidewalks along Fourth Street from Second Street to the high school campus.                                                                                                                  | Vienna Grade School, Vienna High                                                                                     | \$249,400           |
| City of Marion        | Construction of new and/or updated sidewalks along Union Street, Buchanan Street, Calvert Street and Mechanic Street, with intersections receiving new ADA ramps and high-visibility crosswalk striping.                                                                                 | Washington Elementary                                                                                                | \$249,950           |
| City of Murphysboro   | Construction of new sidewalks along North 16th Street to create a continuous, ADA-compliant pedestrian route between Murphysboro High School and Gartside Street.                                                                                                                        | Murphysboro High                                                                                                     | \$250,000           |
| City of Carterville   | Installation of approximately 1,900 feet of sidewalk with detectable warnings, grading and shaping areas where sidewalks are placed to ensure proper drainage and not disrupt current conditions with stormwater runoff, two crosswalks with striping, and culvert extensions as needed. | Carterville Junior High                                                                                              | \$240,043           |
| City of Herrin        | Close existing sidewalk gaps. New curb ramps, marked crosswalks and new signage also are planned.                                                                                                                                                                                        | Herrin Junior High                                                                                                   | \$249,995           |
| Village of Schaumburg | Development of community travel plan.                                                                                                                                                                                                                                                    | Campanelli Elementary, Collins Elementary, Hale Elementary, Hoover Elementary, Addams Junior High, Frost Junior High | \$100,000           |
