

# Outreach materials

“Meeting in a Box” materials were developed to give Metropolitan Planning Organizations, Regional Transportation Planning Organizations, municipalities and other jurisdictions the ability to host their own stakeholder meeting to extend the reach of Walk. Roll. Illinois.

Feedback or questions can be emailed to [dot.activetransportation@illinois.gov](mailto:dot.activetransportation@illinois.gov)

Materials are available in hard copy format or as an online survey. **Please be sure to tell us about your events so we can document the outreach in the final Walk. Roll. Illinois.**

**“Meeting in a Box” materials are available at [www.walkrollillinois.com](http://www.walkrollillinois.com)**

## Promote our survey!

This short survey will help us understand how people currently walk and roll in Illinois. Please consider posting a link to the survey on your social media channels and directing stakeholders to the project website.

## Give a presentation!

Help us spread the word by giving a presentation on Walk. Roll. Illinois to your local stakeholders, advocacy groups, and professional organizations. We’ve developed long- and short-format presentations to make it easy for you!

## Conduct a goal setting activity!

Walk. Roll. Illinois will guide programs and policies related to walking and biking over the coming years. It’s critical that you weigh in on the goals of this policy document. We’ve developed instructions for an easy-to-implement activity to help guide your ideas and gather feedback on the plan’s draft goals.

## Facilitate an opportunities/ constraints activity!

It’s critical to understand the existing barriers and opportunities to walking and biking in Illinois before we develop recommendations. Consider hosting your local stakeholders for an activity that guides them through a process of identifying the top local opportunities and constraints.
