

# Innovative Project Delivery

July 3, 2024

**SUBJECT:** ADA Intersection Improvement Project – Written Determination

In accordance with the Innovations for Transportation Infrastructure Act (Act), the Bureau of Innovative Project Delivery (IPD) has conducted an analysis to determine the project delivery method deemed to be in the best interest of the State for the above captioned project.

The analysis included conducting a qualitative screening, a qualitative evaluation (Level 1), and quantitative evaluation (Level 2), and a preliminary risk assessment (Level 3). The analysis concluded that Design-Build (DB) project delivery is in the best interest of the State.

The risks included in this Written Determination are preliminary and subject to change. A comprehensive risk assessment has been conducted separately and will be monitored and updated as the project progresses.

Bureau of Innovative Project Delivery

## Written Determination

In accordance with the Innovations for Transportation Infrastructure Act (Act) and prior to commencing a procurement under the Act, the Bureau of Innovative Project Delivery (IPD) has conducted an analysis for the following project to determine the project delivery method deemed to be in the best interest of the State.

Project: District 1 ADA Intersection Improvements Project

The project is described together with the stated project goals in Project Scoping Information Sheet.

The project has been evaluated through the IPD Bureau's annual MYP gating process as described in Chapter 2 Project Identification and Screening and has been evaluated for readiness in accordance with Chapter 2.2 - Project Readiness and Selection Process of the IDOT Innovative Project Delivery Manual and Guidelines and has been found to be ready for CMGC, PDB, or DB procurement.

Through evaluation it is determined that it is in the best interest of the State to advance the Project using the following innovative project delivery method:

|   | CMGC $\square$                    | Progressive Design-Build         | Į.            | Design-Build        |  |  |  |  |

# **Project Scoping Information Sheet**

The IPD Bureau will work with the Districts to populate the following form to document potential Candidate Project characteristics.

Additional items can be added to the bottom of the form to facilitate the Project candidacy determination.

This attachment can be referenced in the IDOT Innovative Project Delivery Manual and Guidelines, pg. 12.

## **District 1 ADA Intersection Improvements Project**

#### Route:

Various routes throughout District 1

#### Location:

Various locations throughout District 1

#### **Estimated Construction Cost:**

\$30,000,000 over a 3 year period (fiscal years 2024, 2025 and 2026)

#### **Estimated Construction Duration:**

3 Years

#### Letting Date (as shown in the MYP assuming DBB delivery):

Various throughout fiscal years 2024, 2025 and 2026.

#### Source(s) of Project Funding (as shown in the MYP assuming DBB delivery):

STP/state

#### Scope of Work - pavement, bridge, sound barriers, etc.:

Pedestrian accessiblility improvements to include curb ramps, pedestrian signals, and ancillary works to accomplish the improvements such as utility relocations.

#### Major Schedule Milestones (critical path elements that affect schedule or price):

Ability to design ada ramps, price of concrete or signal equipment

### Major Project Stakeholders:

IDOT and various municipalities where individual projects are located.

#### Major Obstacles (as applicable):

ROW at some locations and utility relocation at some locations. Many locations have no obstacles.

Project Scoping Information Sheet

Printed: 5/17/2024 1 of 2

#### District 1 ADA Intersection Improvements Project

### With Right of Way, Utilities, and/or Environmental Approvals:

Some locations will require right of way and may require environmental approval prior to construction.

#### **During Construction Phase:**

Logistics of working on multiple small projects simultaneously.

### Main Identified Sources of Risk:

Engineering time

### **Brief Project Description:**

ADA improvement and Pedestrian signal improvements at thousands of corners in D1. These are typically packaged into smaller contracts of under 100 ramps per contract and then work is built by various contractors including small businesses.

### Project Specific Goals (accelerating delivery, minimizing cost, maximizing life cycle)

#### Goal #1

Develop a long term, process-based, turnkey solution that is sustainable and repeatable, for effectively and efficiently delivering bundles of intersection projects

## Goal #2 -

Prepare the work packages in such a way that successfully delivers the project as a DB using the best value approach

#### Goal #3 -

Construct 40,000 corners in 15 years, which amounts to 1/25th of ADA corners per year under IDOT's 2026 program

Project Scoping Information Sheet Printed: 5/17/2024

2 of 2

## **Qualitative Screening Form**

Candidate Projects will typically exhibit the innovative delivery characteristics identified in the table below. For the initial screening during the MYP process, the District will populate each characteristic with a Yes or No only. If the project is considered for further development, the IPD Bureau and the District will collaboratively rate each characteristic applicable to a Candidate Project, provide a rating from 1 to 3 for how well the proposed project could benefit from any of the innovative delivery method characteristics compared to a traditional delivery method.

### Rating Scale:

- 1 Minimal benefits
- 2 Moderate benefits
- 3 Significant benefits

Provide any commentary that may be beneficial for reviewers in the comment's column. All questions must be answered.

This attachment can be referenced in the IDOT Innovative Project Delivery Manual and Guidelines, pg. 12.

| District 1 ADA Intersection Improvements Project  |                                     |        |          |  |  |  |  |  |
|---|-------------------------------------|--------|----------|--|--|--|--|--|
| Characteristic  | Initial<br>Assessment<br>(Yes / No) | Rating | Comments |  |  |  |  |  |
| Expedites or "fast tracks" construction for accelerated delivery  | Yes                                 | 3      |          |  |  |  |  |  |
| Uses of innovative design and construction techniques   | Yes                                 | 3      |          |  |  |  |  |  |
| Is of sufficient size and complexity to effectively leverage private-sector innovation and expertise. Rating can apply to single project or bundled projects. | Yes                                 | 3      |          |  |  |  |  |  |
| Accelerates delivery by expediting utility relocations allowing flexibility to design for utility avoidance during construction                               | Yes                                 | 3      |          |  |  |  |  |  |
| Expedites contract award  | No                                  | 2      |          |  |  |  |  |  |

IPD Project Delivery Selection Report

#### Level 3 Risk Assessment Worksheet

#### nstructions

- 1. Provide a number for the risk
- 2. Provide a name for the risk
- 3. Assign a risk category for the risk
- 4. Provide a brief description of the risk
- 5. Select a probability rating that the risk will occur (1 Low, 2 Medium, 3 High)
- 6. Select a rating for the likely consequence if the risk does occur (1 Low, 2 Medium, 3 High)
- 7. The spreadsheet will calculate an impact rating
- 8. Select the preferred allocation of the risk (owner, contractor, third-party or shared)
- 9. Document how the project team intends to mitigate the risk impact
- 10. Add any notes from risk discussions

11. At the end rows can be unhidden or hidden to add/subtract rows as necessary

## **Pre-Procurement Checklist**

A pre-procurement checklist is recommended for every project. The checklist below contains the typical items necessary to ensure a project is ready for procurement. A project-specific checklist should be developed to capture all items completed or in progress prior to commencing with the procurement process.

This attachment can be referenced in the IDOT Innovative Project Delivery Manual and Guidelines, pg. 17.

| Distri       | District 1 ADA Intersection Improvements Project  |  |  |  |  |  |  |  |  |
|--------------|---|--|--|--|--|--|--|--|--|
|              | Item  | Comments   |  |  |  |  |  |  |  |
