Comments:

In viewing the analysis of Carroll County's data, I find no problem. In fact the stop breakdown ratio closely reflects our population breakdown.

I would have to ask what has this study done for us besides waste our time and the taxpayers money? What are you doing with the data?

When the bill responsible for establishing the program was working it's way through committee, it was acknowledged that the method of collecting the data is seriously flawed and could result in a very high degree of inaccuracy in the results. With that in mind, why are

I feel it is a flawed study implemented for the political gain of those responsible for its implementation. Save the taxpayers money and terminate the study.

C. Jeff Doran  
Sheriff

Comments:

Since inception of the program the Clarendon Hills Police Department has stopped motorists at a rate that is consistent with both the expected rate established by the State of Illinois and confirmed by our own study of motorists using Clarendon Hill's roadways. Each officer's activity is collected by an in-car computer and their statistics are reviewed quarterly and during their annual performance review.

Comments:

Due to an interstate and federal highways that run through our county with all races traveling on them, it's not an accurate count for racial profiling when our minority percentage for the county is grossly under reported to begin with.

Comments:

I have viewed the analysis and find them to be a fair and accurate representation of the traffic stops conducted by the ECC police department.

Comments:

To whom it may concern:

After reviewing the latest statistics concerning Village of Evergreen Park traffic stops--

Estimated Minority Driving Population is currently set at 62.57% Percentage of Minority Stops for 2009 was 71.35%

The Estimated Minority Driving Population ( last adjusted in 2004 ) does not reflect the current demographics and traffic flows on major arterial streets. Over the past 5 years, minority population based on recorded increased school attendance and residency along with the increased traffic flow through Evergreen Park is not reflected in the Estimated Minority Driving Population as a percent of Minority Stops.

I will be requesting a Benchmark Adjustment so that the Estimated Minority Driving Population is more realistic percentage of the Minority Stops.

Michael D. Saunders  
Chief of Police  
Village of Evergreen Park

Comments:

During the time period set aside for reviewing and commenting on our 2009 Traffic Stop Analysis it was discovered that the data included for our department was not complete. While we have not been able to determine what the underlying technical issue was only a portion of the data was successfully uploaded during the year. The complete data has since been successfully uploaded; however it was too late to appear on the 2009 analysis sheet.

The department is currently compiling a complete data sheet that will be available for review. The full data set includes 2,185 traffic stops of which 1,622 (74.23%) were Caucasian drivers and 563 (25.77%) were minority drivers. The 2009 estimated minority driving population for our jurisdiction was 14.6% resulting in a ratio of 1.77.

Comments:

I really don't see the need for this unfunded mandate, in our area. Waste of time and resources.

Comments:

The Illinois State Police (ISP) and the Illinois Department of Transportation are pleased to report that traffic fatalities on Illinois roadways were at the lowest level since 1921. In 2009, the number of fatalities was reported at 911, a 37 percent reduction from 1,454 in 2003, the first year of the traffic stop statistical study. Traffic enforcement is a key component of safer highways. Illinois state troopers conducted more than 459,000 traffic stops during 2009. Although speeding and seat belt violations are among the most common traffic violations encountered by troopers, alcohol offenses, defective equipment, and other moving violations are routinely enforced.

The ISP continues to train troopers to look beyond the ticket and remain aware of criminal and potential terrorist activity during traffic stops. In 2009, troopers made more than 21,500 criminal arrests during traffic stops for offenses that included bank robbery, murder, sexual assault, wanted on warrant, narcotics, and weapon violations.

The Illinois State Police does not condone or tolerate bias-based policing. Data from the traffic stop statistical study is reviewed as an important component of a bias-free policing commitment to the citizens in Illinois.

Total traffic stops by ISP troopers increased by 3,892 during 2009. Traffic stops on minority drivers remained less than the minority driving ratio as established by Northwestern University. Consent searches were requested by troopers in significantly less than one-half percent of all traffic stops. The percent of consent search requests decreased for both Caucasian and minority drivers from the previous year. The ratio of minority drivers searched as a result of consent search remained higher than the ratio of Caucasian drivers. The ISP is committed to bias-free policing. In addition to data collection and analysis, the ISP continues to utilize video cameras in patrol vehicles, a formal citizen complaint process, training, supervision, and community involvement to ensure professionalism during traffic stop enforcement activities.
