Comments:

ALEXANDER COUNTY SHERIFF OFFICE 2010 REPORTS ARE NOT AS HIGH AS EXPECTED DUE TO THE FACT THAT OUR TRAFFIC DETAIL WAS CUT IN 2010. WE NOW HAVE NEW SHERIFF AND HAVE STARTED BACK ON OUR TRAFFIC DETAIL. 2011 REPORT SHOULD BE CONSIDERABLY HIGHER THAN 2010.

Comments:

Dear IDOT/Division of Traffic Safety:

Upon reviewing the 2010 statistics concerning the Village of Evergreen Park's Traffic Stops, please note the following:

The study shows the Estimated Minority Driving Population at 62.57%, while the actual percentage of Minority Drivers Stopped is 73.30%.

Last adjusted for population changes and the demographics of incoming traffic flow in 2004, the Estimated Minority Driving Population does not reflect a true representation of the Actual Minority Driving Population. As I am confident the 2010 census indicates, the past 6 years has shown a considerable shift in Minority population residency. This is also reflected in recorded increase Minority school attendance as well as increased exterior Minority traffic flow thru Evergreen Park's main arterial streets.

I will be requesting a Benchmark Adjustment based on the above indicators, so that 2011's the Percentage of Minority Stops will be a true reflection of the Estimated Minority Driving Population.

Michael D. Saunders
Chief of Police
Village of Evergreen Park

Comments:

The estimated minority driving population shown here is very low in our opinion. It appears to be based on 2000 census data. These numbers would have been about right for our village's population in 2000. Even this is misleading because as a very small village in a large suburban area the majority of our traffic stops are on non-residents. Our town is surrounded by areas with large minority populations, i.e. Summit, Cicero, Berwyn and Chicago, and several major traffic arteries pass through our village. Interstate-55 bisects our village with Harlem Avenue and Central Avenue being major feeders of traffic to I-55. This creates a situation in which the vast majority of our traffic is drivers either going to or from I-55, or traveling through Forest View on either of these large streets.

The current population of our village has a much larger percentage of Hispanics than it did in 2000. The latest census will surely reflect this when the numbers are available.

To summarize, the estimated minority driving population figure is based in outdated information and does not reflect the traffic patterns of our location

Comments:

Grafton is a very small community. Our population of approximately 650 people is almost entirely caucasian. During the spring, summer, and fall, thousands of people visit the wineries, marina, shops, and Mississippi River attractions every weekend. Thousands more pass through Grafton on Illinois Routes #3 and #100. The River Road is heavily traveled by people enjoying the natural beauty of the area. Visiter's come here from all of the surrounding areas with many arriving from Alton, Illinois and St. Louis and St. Charles, Missouri cities and counties. Those areas have much higher minority populations. While our stop ratio would appear high, it amounts to one traffic stop of a minority per month. Grafton is a safe and welcoming community. Members of all races and ethnicities are equally invited to come and enjoy everything Grafton has to offer. Everyone is and will continue to be treated in a fair, friendly, and open manner by the police department and the entire community.

Comments:

Interesting report, will review with all officers. Thank You. Sgt. Bell

Comments:

We are continued to be forced to see people in the form of color and race as we have to judge them based on our opinion. Why not have the SOS office capture the information at the time of a drivers license is issued, with what ever study information that you think is needed. Perhaps we want to know if your left or right handed, your sexual preference, your religion, your race... All of this could be tracked by the SOS office, and compared to the departments use of the computers when making inquiry into a drivers license check, or when citations are issued the SOS is notified. All of this study could be done with computers at Springfield and done behind the scenes. This would help the officers to not have to continue seeing color, and allow us to see people as people and deal with the situations. We need less government studies and wasting of our money on studies such as this. We have done without an officer most of this past year because Illinois has no money..... Stop the nonsense.

Comments:

As we have indicated on so many occasions, the City of LaSalle has had a large increase of minorities move into the city which is not reflected in the last census. The city also has a large transient population which is also not taken into account. Much of this transient population is due to our disproportionate low income and public housing. This study also does not take into account a large amount of recidivism in traffic arrests such as driving while suspended.

Comments:

We are again requesting that the Orland Park ratio of 80/20 non minority/minority be reviewed. This is the third year we are requesting this and we have not heard back from you.

Orland Park has several major state roadways to include Routes 6, 7, 43 and 45 running through our municipality along with a southern border of Int. 80. We are the largest shopping area in the south and southwest suburbs which has been enhanced with the near closure of Lincoln Square Mall in Matteson.

For these two reasons alone; we believe that the ratio should be adjusted.

Comments:

We have been collecting this data for several years now. It is an unfunded mandate, including printing costs, data entry (about 45 mins per day), and extended traffic stop times. To be clear, I am totally opposed to Racial Profiling which is the initial reason for this data collection. But, after several years of statistical analysis there should be a date where we are no longer required to collect this information. With revenues going down, budget cuts, loss of staffing etc., I feel this mandate should end soon.

Comments:

The department does not issue written warnings. This information is reflected in the "Outcome of Stop" area. The department only issues verbal warnings or citations. The report accurately reflects the only two possible outcomes for a traffic stop.

Comments:

The UIC campus community and patrol areas are situated between transportation hubs and established gateways to various parts of the city and outlining suburban areas. These gateways to various parts of the city and suburbs create transient population base. Chicago is divided in communities of various characteristics such as race, ethnicity, religion and other factors which make it difficult to accurately calculate the base population for comparison and analysis.

Comments:

According to Illinois Department of Transportation, "getting around Illinois" - "Average Daily Traffic Counts," there are between 14,200 and 17,500 vehicles that travel through the intersection of US Route 20 and Winnebago Road (Commonly known as Winnebago Corners) on a daily basis. There are several retail establishments immediately south of this particular intersection, which is within the jurisdiction of Winnebago Police Department.
